

Nokia Webstore

White-Labeled Webstore Training for
Your Digital Purchasing Experience

Your Dedicated eCommerce Portal

One Stop Shop

One centralized location for all Nokia purchasing activity.

Real-Time Visibility

immediate visibility into inventory, pricing, and order status.

Streamlined Processes

Eliminates manual emails and back-and-forth communications.

What You'll Learn

1

Find Products

Search and find products fast.

2

Build Orders

Build your order with ease.

3

Submit Orders

Submit your order in just a few steps.

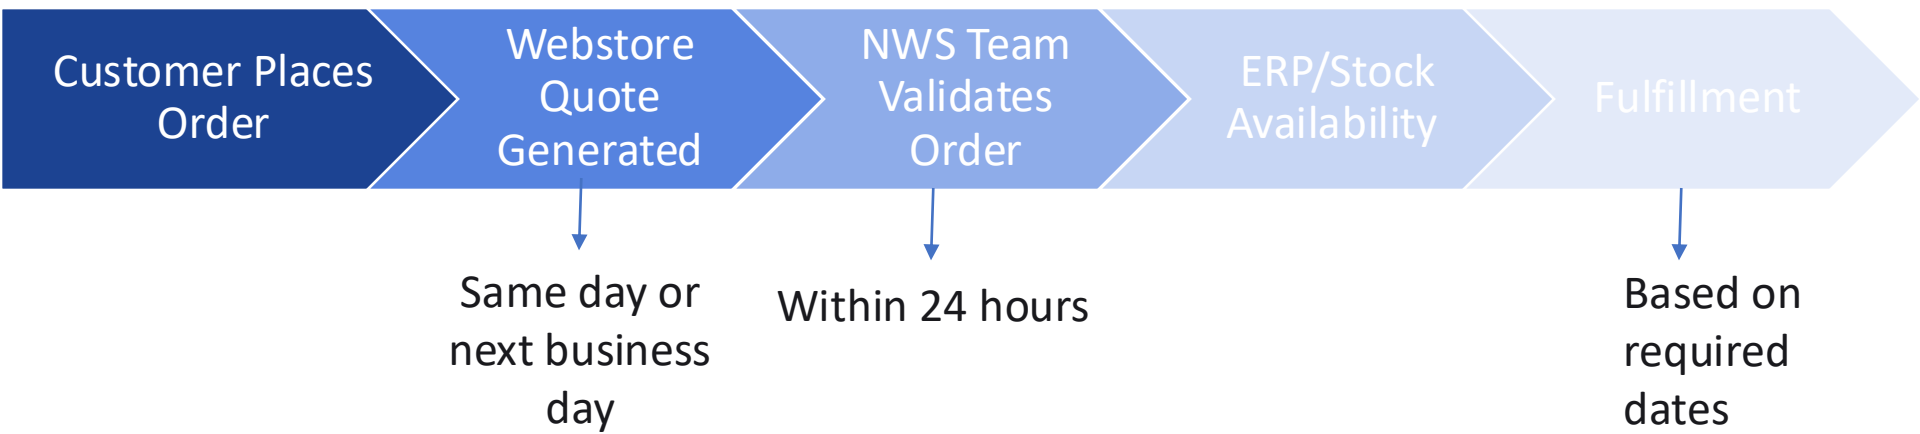

4

Track Orders

Track orders in real time.

This session is designed to provide a guided, end-to-end view of your webstore experience, ensuring you can efficiently navigate, transact, and manage orders with confidence from day one.

How It Works

What You Can Do

Product Discovery

Quickly find the products you need.

Ordering

Submit orders with ease.

Tracking & Visibility

Monitor order status from start to finish.

BOM Upload

Upload bulk orders in just a few steps.

Stock Availability

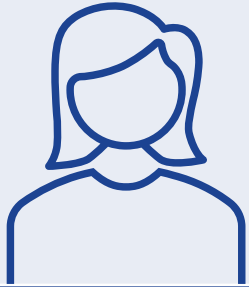

View real-time inventory and availability.

Account-Based Pricing

Access your contract pricing automatically.

How You'll Access

Buyer

Submit Orders

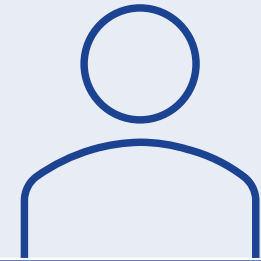

Submit and manage orders through the webstore, including building requests, submitting orders, and tracking progress through completion.

Approver

Approve Purchases

Review and approve purchase requests to ensure accuracy, compliance, and alignment with internal purchasing requirements.

Viewer

View Activity

Access order activity, track status, and maintain visibility into purchasing without submitting or approving requests.

How to Search Products

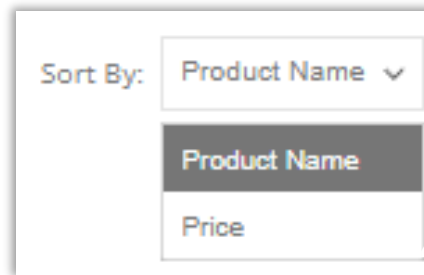

Keyword Search

Search by keyword, part number, or SKU to quickly locate the products you need. Results are designed to be relevant and easy to navigate.

Filters

Use filters and categories to narrow results and quickly identify the most relevant products based on your needs.

Build Orders

Add items directly to your cart from the results page, allowing you to build your order as you search.

Here's the Workflow

How to Place an Order

The screenshot shows the Nokia ordering interface. At the top, there is a navigation bar with the Nokia logo and links for PRODUCTS, BOM TOOLS, MY ACCOUNT, and SUPPORT. A search bar and a shopping cart icon with a '3' notification are also present. Below the navigation bar, a progress indicator shows two steps: 'Shipping' (completed) and 'Review & Payments' (current step). The main content area is titled 'PAYMENT METHOD' and includes a 'Purchase Order' section with a checkbox for 'My billing and shipping address are the same'. Below this, the shipping address is listed: 'test four', '621 Broad St', 'Durham, North Carolina 27705', 'United States', and '1111111111'. There is an 'Edit' link below the address. The 'Site Id' field contains 'Nokia123'. A blue 'PLACE ORDER' button is located at the bottom right of the main content area. On the right side, there is an 'ORDER SUMMARY' table:

ORDER SUMMARY	
Subtotal	\$131.25
Shipping Best Available	\$0.00
Order Total	\$131.25
3 Items in Cart	▼

Below the order summary, there are sections for 'Ship To:' and 'Shipping Method:'. The 'Ship To:' section shows the same address as above. The 'Shipping Method:' section shows 'Best Available'.

Submit order directly.

Can be done faster than traditional email-based ordering.

Serves as a structured and trackable store.

What Happens Next

What Happens Next

1

Approvals & Validation

Orders are reviewed and approved based on your organization's requirements. Inventory, pricing, and order details are validated to ensure accuracy before processing.

2

Order Confirmation

Once approved, you'll receive confirmation and provide a PO if required. This finalizes the order and moves it into processing.

3

Tracking & Status Updates

Track your order in real time through the portal, with clear visibility into status, processing, and shipment updates.

4

Order History

Access past orders at any time, making it easy to review activity, track previous purchases, and quickly reorder when needed.

Here's the Advanced Features

BOM Upload

BOM upload allows for bulk ordering.

Saved Lists

Saved lists translate to faster orders.

Inventory Visibility

Better inventory visibility allows for better planning.

Why It Matters & How We Support You

Faster & More Efficient

- Streamlined ordering reduces manual steps and speeds up the purchasing process.

Improved Accuracy

- Structured workflows and validation ensure orders are complete and correct before processing.

Full Visibility

- Track orders and access updates in real time, with no need for manual follow-up.

Structured Support Workflow

- Support requests are routed to the right team, tracked through resolution, and communicated clearly at every step.

How NWS Can Help

Portal

Submit support requests directly through the webstore for structured, trackable assistance.

Email

Reach out via email for quick questions, updates, or follow-up communication.

Account Team

Connect with your dedicated account team for personalized support and ongoing guidance.

Go-Live & Key Takeaways
